—AN INVITATION—

Sanitary plumbing and a modern bathroom are no longer luxuries. Fixtures are now made in such enormous quantities that they can be sold at prices within the means of every one. If you have no bathroom or the equipment is antiquated and unsanitary, visit our display room and see what a great improvement is possible at a moderate cost.

Why You
Should Own
Your Own
Home

BY W. A. FLECKNER, M. D.,
State Registrar of Vital Statistics.
The family is the foundation upon which national, state and civic strength is built. Within the family circle are developed:
Mental endowment or mental barrenness.

No family can develop normally without sufficient room, pleasant surroundings and permanency, all at a minimum of cost.

Citizens of worth share in the support of the government and are rated as community assets.

Own your own home, give your child a room of his very own, and you can compete on more than equal terms. With movies, street corners and undesirable companions.

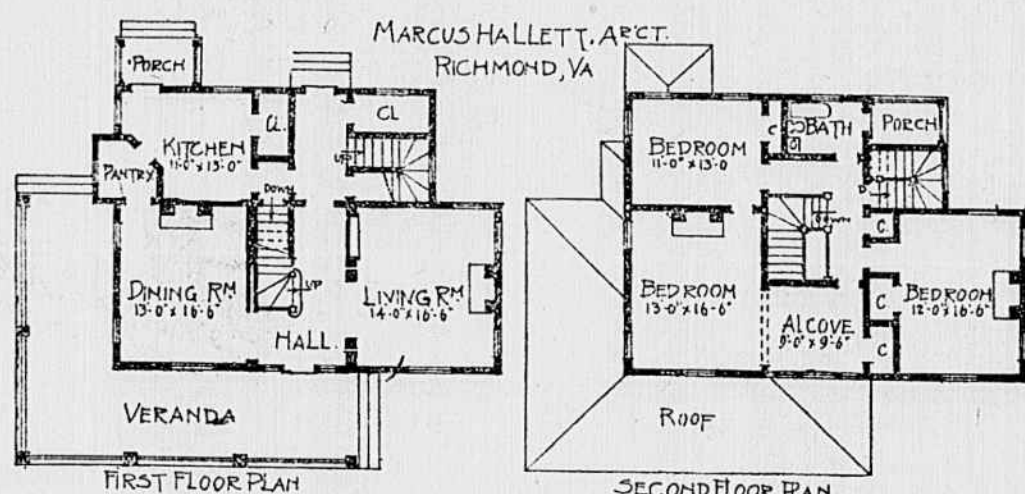

Home ownership is:
A source of untold pleasure.
It reduces the cost of living.
It can be secured with your regular monthly rent.

It develops a habit of thrift, insures you a resting place during life and relieves you of the fear of old age dependency.

Why not—
Pay rent to yourself?
Benefit by the improvements you make!

Enjoy a sense of ownership and security!

Are you grouchy or dyspeptic?
If so, buy a suburban home.
Wear overalls and a smile.
Plant flowers and vegetables.
Entice song birds around.
Bring about your hens and potatoes.
Digest your food and grow strong.
When we become a city and State of homes, the terrible divorce culture which now hangs over us as a black shadow will quietly float away.
Build your own home and have it just right.
